Full Stack Developer with experience building and maintaining web portals using ReactJS and NodeJS, focused on performance, scalability, and user experience. Experienced in designing, developing, and implementing end-to-end products using React, React Native, FastAPI, Node.js, as well as integrating APIs and databases. Skilled in CI/CD pipeline automation and working with cloud platforms such as AWS and Google Cloud. Known for strong analytical thinking, proactivity, and continuous improvement mindset, consistently adding value to both product and team.

EXPERIENCE

Policy and Procedure Analyst

Grupo Cayalá | 2026 - Present

- Documented and mapped operational processes across multiple business areas, identifying bottlenecks and automation opportunities.
- Redesigned internal procedures, reducing manual steps and approval times.
- Partnered with cross-functional teams to translate operational needs into clear, actionable requirements.

El edén - Full Stack Project

Freelance project | 2026 - Present

- Designed the full solution architecture and the site's UI, from concept to implementation.
- Built an administrative portal for managing content.
- Developed the Front-End using Next.js, focusing on performance, SEO, and user experience and implemented the Back-End using NestJS and PostgreSQL, defining the data model and REST APIs.

Front-End Development Coordinator

Fundación de la Universidad del Valle de Guatemala - Explorax | 2024 - 2025

- Led and coordinated a Front-End development team, ensuring timely delivery and high-quality standards.
- Implemented serverless functions using AWS Lambda and REST APIs integrated with AWS S3, including technical documentation.
- Implemented global state management using Redux Toolkit with Redux Saga for handling asynchronous flows and API / Database communication.
- Automated build and deployment processes on AWS EC2 using GitHub Actions.
- Developed web and mobile applications using React and React Native under SCRUM methodology.

EDUCATION

B.Sc. in Computer Science and Information Technology | AI Specialization

Universidad del Valle de Guatemala | January 2022 - Present

- Academic Recognition for Maintaining a GPA Above 95
- Active Involvement in Student Organizations

High School Diploma - Computer Science Focus

Colegio Suizo Americano | 2011 - 2021

- Franklin Covey Education - "Leader in Me" Program

TECHNICAL SKILLS

Programming Languages

- JavaScript, TypeScript, Python, Go, Java, R

Front-End

- React, React Native, Redux (Redux Toolkit, Redux Saga), HTML, CSS, Tailwind CSS, NextJS

Back-End & Cloud

- FastAPI, Node.js, GraphQL
- AWS, Google Cloud
- RESTful APIs
- Django
- nestJS

Databases

- SQL: MySQL, PostgreSQL
- NoSQL: MongoDB, Neo4J
- Business Intelligence

Additional Skills

- Leadership and teamwork
- Problem-solving
- System design and prototyping
- Adaptability and responsibility
- Agile / SCRUM methodologies

DevOps

- CI/CD
- GitHub Actions
- Docker

Languages

- Spanish: Native
- English: Intermediate
- German: Basic

ACADEMIC ACHIEVEMENTS

- Honor Merit Diploma | 2022 / 2024 / 2025
Universidad del Valle de Guatemala. GPA above 95
- Merit Diploma | 2023
Universidad del Valle de Guatemala. GPA above 90
- Mobile Application Development with Java and Kotlin | 2022
Intecap Guatemala. Training in Mobile Application Development using Java and Kotlin
